- **Math and Design Baccalaureate**

Highschool N°1, Atlántida (Uruguay)
2009 - 2014

About me

- I am a fast learning student with a passion for programming, design and visual arts, which has led me to partake in game jams and personal development projects
- I consider myself to have a great capacity for solving practical, programming, and design problems
- I studied GeneXus app development by Jóvenes a Programar (programming youth), and web-design by FADU (Architecture and Design Faculty)
